

The POWER of CARING

MAY 18TH, 2016 - On behalf of NexSource Power and Pike Wheaton Chevrolet, a huge THANK YOU goes out to all those who supported our recent Fort McMurray donation and supply drive. Despite the current economic state in Alberta, the generosity of our residents is overwhelming. Following our week long campaign to fill a trailer with supplies, the contents were recently delivered to the Edmonton Emergency Relief Donation Centre. What came from that delivery will stick with us forever.

This is where we got to see the power of caring up close. As we pulled up to the side of the donation centre, we were greeted by four smiling individuals asking where we were from and genuinely thanked us for making the trip to help those in need. As they unloaded the trailer you could see a staggering amount of donations inside being sorted by countless volunteers and waiting to be distributed to those who were displaced by the wildfire. And this is just one location across the province. So many Albertans dug deep and donated. THANK YOU.

Alberta Strong we are.

But the power of caring stretches well past our provincial borders. In the pocket of the safety vest of one of the volunteers who helped unload the trailer was a badge for the London Ontario Fire Department. These four grateful Firefighters volunteered their personal time by taking a week of holidays to travel the 3285 kilometers to help. They cared enough to do something about it. So to them, and all who have taken time to offer support in this tough time, THANK YOU.

Canadian Strong we are.

#WEGOTYOURBACKFORTMAC
